

Our Process

Introduction

South32 are passionate about supporting and working with the communities where we operate. We actively engage with stakeholders to understand their interests and aspirations and identify opportunities to work together to create shared value.

Focus Areas

South32 supports local community projects aligned to four key focus areas:

1. Education and leadership

- Education, training, youth development and childcare.
- Supporting lifelong learning and development, nurturing future leaders, and promoting equal access to education, with a focus on science, technology, engineering, and mathematics.

2. Good health and social wellbeing

- Community health, sport and recreation, family, and youth support.
- Supporting community health and social wellbeing and promoting inclusion.

3. Economic participation

- Local employment, local business development.
- Supporting local employment, sustainable livelihoods, and diversified local economies.

4. Natural resource resilience

- Environment, water, land management.
- Supporting communities to thrive in their environment and use natural resources responsibly and sustainably.

You will be asked to select the South32 focus area that your project most closely aligns with. Read about [our approach to communities and society](#).

Assessment Criteria

South32 will assess grant applications based on how successfully the project will:

- Deliver benefits to the community in alignment with our focus areas;
- Support inclusion and community participation;
- Support the needs of the community;
- Deliver present and future benefits to the local area; and
- Support the local environment and natural resources.

Due to our many applications, meeting the assessment criteria does not guarantee support. South32 retains discretion over the community projects or
